

- Different types of desktop Pc and server Components?
- [Characteristic Differences between Desktop PC and Servers]:
 - [Properties 1]: Explain
 - [Properties 2]: Explain
 - [Properties 3]: Explain
 - [Properties 4]: Explain
 - [Properties 5]: Define? Explain
 - [Properties 6]: Explain
 - [Properties 7]: Explain
 - [Properties 8]: Explain
- [Types of storage for PC]:
 - [PC]: Explain
- [Types of storage for server]: List
 - [Storage type 1]: Define? Types
 - [Type 1]: Explain? Advantage? Disadvantage
 - [Type 2]: Explain? Advantages?
 - [Storage type 2]: Explain
 - [Storage type 3]: Explain? Used
 - [Storage type 4]: Define
 - [Type 1]: Define? Advantage? Disadvantage
 - [Type 2]: Define? Advantage? Disadvantage
 - [Type 3]: Define? Advantage?
 - [Type 4]: Define? Advantage? Disadvantage
 - [Type 5]: Define? Advantage? Disadvantage
 - [Type 6]: Define?
 - [Type 7]: Define? Advantage?
- When to use the three server storage types?
- [Server Form factor]: Types?
 - [Type 1]: Define? Types?
 - [Type 2]: Explain? Used
 - [Type 3]: Explain? Used
