

If statement:

```
If(condition) then
    //code
Endif
```

If else

```
if(condition) then
    code
else
    code
Endif
```

Nested if:

```
if(condition) then
    code
    if(condition) then
        code
    Endif
Endif
```

Nested If else:

```
if(condition) then
    code
else
    if(condition) then
        code
    else
        code
    Endif
Endif
```

```
Endif
```

Switch case statement:

```
Switch(response)
```

```
    Case 'a':
```

```
    Case 'A':
```

```
        Output "option A or a"
```

```
        Break
```

```
    Case 'b':
```

```
        Output "You selected option B"
```

```
        Break
```

```
    Default:
```

```
        Output "the rest"
```

```
EndCase
```
