

QUESTION 4 (10 MARKS) 2

- i. List the total number of hours worked on each project by each of the employees (i.e., each employee who has worked on a project should be listed along with the total number of hours they have worked)

QUESTION 6 (10 MARKS) ALL

List and explain what would need to be added to this ERD to enable a record of students' results in units. You should assume that a student can take a unit several times, for example, if they fail, they can take the unit again until they record a passing grade. You can also assume that each unit is only offered once each year. (10 marks)

QUESTION 8 (10 Marks) 5

Data cleaning (cleansing) is particularly important in preparing data for a data warehouse. Explain, using the example of data being imported for a customer data warehouse from three different customer-focused operational systems that had been developed by different departments in the organisation. (5 marks)

QUESTION 10 (10 MARKS) ALL

27/100 ← Barely passed (50%)

Question 1

(e)

3 marks

Question 3
